

Asian Range Breakout

Concept

Asian range (20:00 prior NY -> 02:00 NY) caps where the night algos sat. London/NY traders take it out cleanly when intent is real. We trade the first 15m close beyond the range with a body > 60% of the bar.

Rules

- Time — After 02:00 NY, before 10:00 NY (the breakout window).
- Range — Asian session bars define hi/lo.
- Trigger — Closing 15m bar's close > Asian hi (LONG) or < Asian lo (SHORT) AND |body|/range > 0.6.

Entry

- Market at trigger close.

Stop loss

- Mid of Asian range.

Take profit

- TP1: 1.1 x risk · TP2: 1.5 x risk · SL: 1.0 x risk
